WARP WORLDWIDE, LLC

Master

Where language learning and academy join hands.

What is Master?

WARP WORLDWIDE, LLC

Master includes 10 levels with 3 modules each level, a total of 100 hours

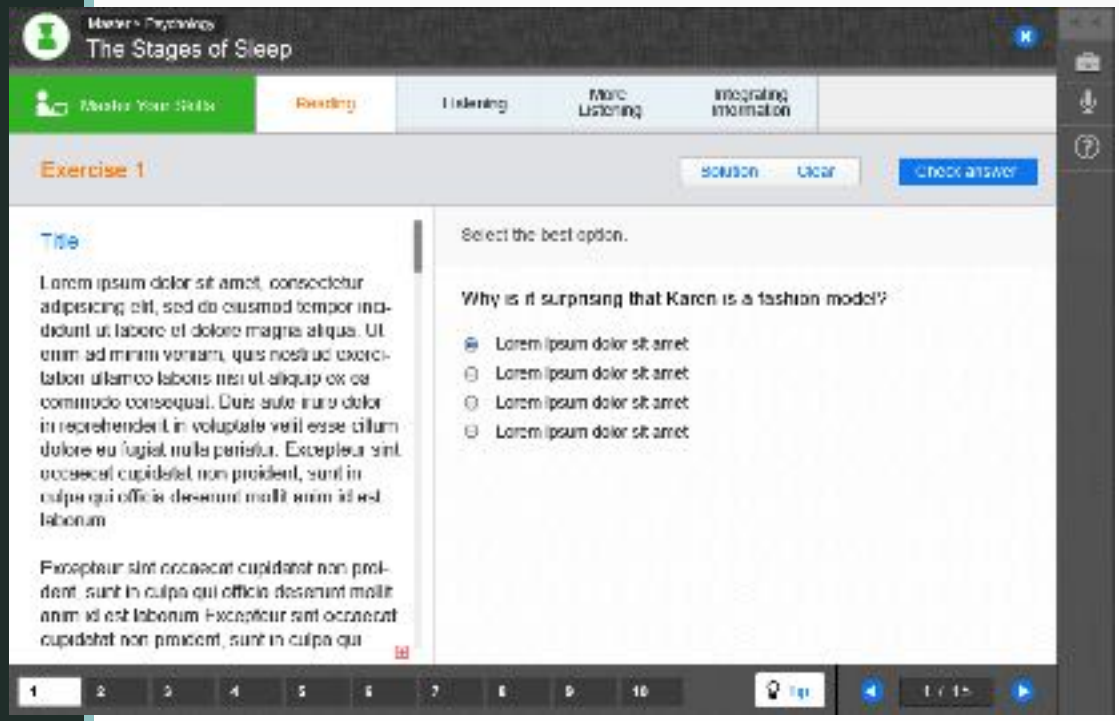
- An online, academic English course that brings the learner to Level C2 of the Common European Framework
- Focuses on academic reading, listening, writing, and speaking
- Target Audience: university undergraduates and learners studying in a private framework
- Prepares learners to deal with English on an academic level

Module 1: Reading Comprehension

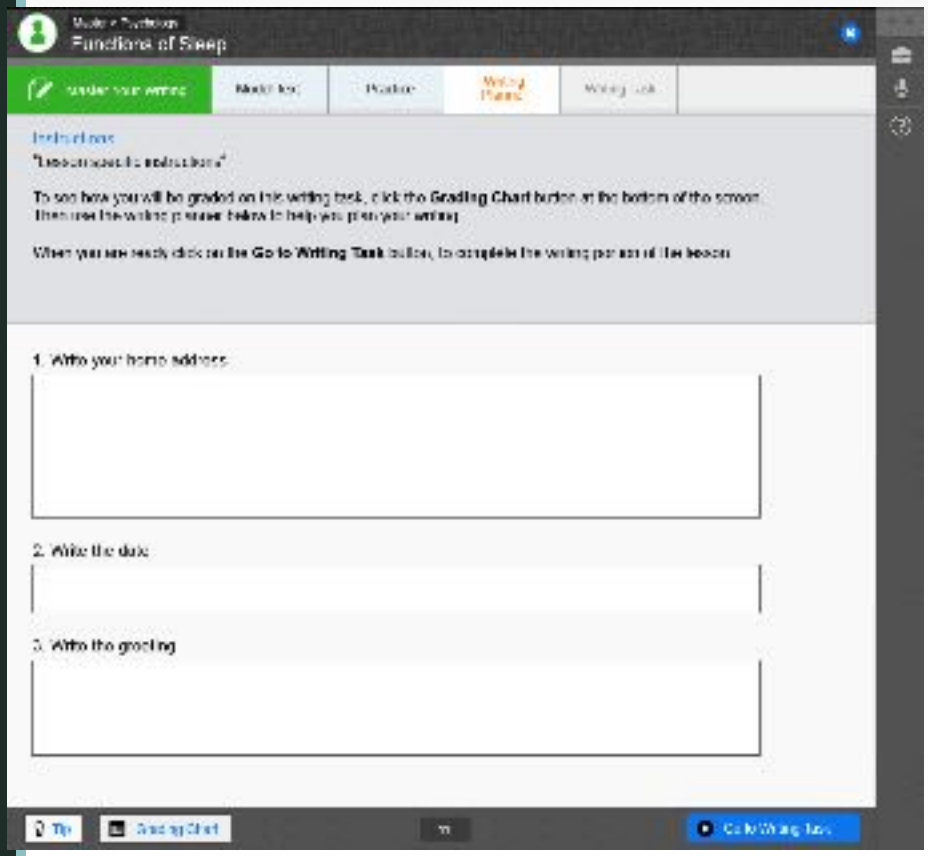
- Pre-reading and long reading stimuli (including reference's)
- 10 practice activities with automatic, immediate feedback

Module 2: Listening and reading

- Three listening and/or reading stimuli
- 10 activities (two for each stimulus and four activities requiring learners to integrate information from all three stimuli.)



Module 3: Writing Lesson



- Model Text illustrating the text-type assigned at the end of the unit
- 10 activities related to Model Text
- Writing Planner to prepare for writing task
- Open-ended writing task

Topics

Master includes 10 units:

1. Astronomy: the possibility of time travel
2. Psychology: theories of sleep
3. Telecommunications: running a call center
4. Electronics: designing and writing a good technical user guide
6. Business and Law: globalization and changes to business law
7. Nanotechnology: potential benefits and risks of nanotechnology
8. Genetic Engineering: Is genetic engineering ethical?
9. Robotics & Medicine: current and future uses of robots in medicine
10. Literature: The Street that Got Mislaid, by Patrick Waddington

Stimulus Types

Reading

Articles and essays, newspaper editorials and stories, a textbook excerpt, an advice column, a short story

Listening

Debates, lectures, interviews, soap box, Webinar, podcast, monologues, press conference

Writing

Comparison and contrast, a persuasive essay, an expository essay, a news article, a narrative

WARP WORLDWIDE, LLC

Benefits

- As with all of ELL's products, Master provides automatic feedback on closed-ended activities.
- Many activities reflect question formats used on TOEFL and TOEIC exams.
- The grading rubric defines the goals of the writing task, and can be used by learners to grade their own work.
- The writing task can be e-mailed to peers or teachers for feedback.
- The check function in the writing planner and task gives learners suggestions for corrections.

Student Dashboard

Single entry dashboard for learners to manage their courses, see their progress and access our specialized learning tools.

Features:

- ✓ User friendly interface
- ✓ Easy to use navigation
- ✓ Module design
- ✓ Real time data and messaging
- ✓ Cross browser capability

Student Dashboard

Home

Widgets are used to provide students with quick access to latest lesson activity, their upcoming events, progress and notifications.

Schedule

Students can view their upcoming lectures, assignments, and holidays.

.

Courses

Courses are loaded into the dashboard to give students access to all levels, units, lessons and exercises.

.

Progress

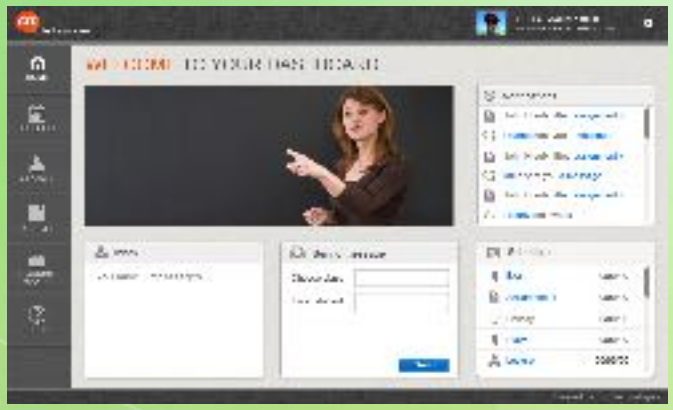
Students can drill down into each level to see their progress for units, lessons and exercises

Learning tools

These tools are provided to assist with the learners development

Teacher Dashboard

Teacher dashboard enables the user to manage their classes, view their schedule and interact with students.



Features:

- ✓ User friendly interface
- ✓ Easy to use navigation
- ✓ Module design
- ✓ Real time data and messaging
- ✓ Cross browser capability

Teachers Dashboard

Home

Widgets are used to provide teachers with quick access to inbox, emailing students or classes, upcoming events, and notifications.

Schedule

Teachers can view their upcoming their schedule for daily events and for their classes. They can also add events to any class.

.

Classes

Teachers can view classes and also select individual students to see their progress and assign out tasks.

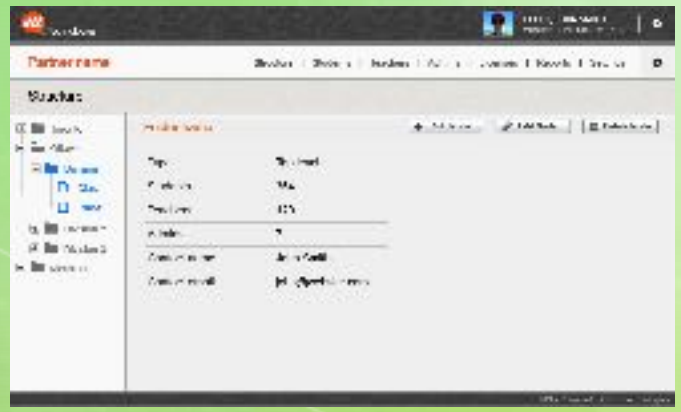
Note: Teachers also have access to courses and the learning tools to assist in assigning assignments and providing feedback to students

LMS – Learning Management System

Complete redesigned Learning Management System (LMS) to provide clients with the most up-to-date, user-friendly management system.

Features:

- ✓ User friendly interface
- ✓ New reporting system
- ✓ Module design
- ✓ Exporting system



Speech recognition

Analyze pronunciation and exercise real life scenarios

The Studio

Learners practice conversational English with Lucy, the avatar, in Speak2Me.

Speak2Me uses advanced speech-recognition technology that can detect mispronunciation of single phonemes (sounds).

Speak2Me

Learners choose from thousands of words and phrases to hear native speakers' pronunciation.

They can record themselves until they are satisfied with their pronunciation.
